

# Total Cost of Care

## Training Series

This four-part series tailored for healthcare professionals, decision-makers, and financial analysts will help you gain a comprehensive understanding of fundamental concepts for determining the true costs of healthcare services. Each session will offer practical insights into cost components, allocations, and value-based payment (VBP) arrangements that can transform the way you approach healthcare business management. By attending every session, you will unlock a cohesive framework that enables you to optimize your business strategies. Don't miss out on this series – register now.
